

RECYCLING SERVICE UPDATE

Improving Recycling & Garbage Collection for Businesses

Spring 2009

STAY INFORMED, BE INVOLVED

Your business needs are shaping innovative recycling programs to achieve the city's zero waste goal.

For over a year, the City of San José has been working with the business community to evaluate commercial garbage and recycling services. On March 24th, the City Council approved the development and release of Requests for Proposals (RFPs) to identify potential service providers and changes to the existing system. The RFPs are scheduled to be released this summer, with proposals due in late 2009.

Visit www.sjrecycles.org/business/commercial-redesign.asp for more information on this process.

If you have questions, email zerowaste@sanjoseca.gov or contact Mike Foster at (408) 975-2601.
