

# Anaerobic Digestion Workshop

April 12, 2010

## Who is Zero Waste Energy?

- Formed to design, build and operate advanced waste recovery systems and energy production
- GreenWaste MRF and AD systems are full scale demonstrations of our operations
- Exclusive Technologies and Operational Expertise are core competencies

## What can Zero Waste Energy provide to You?

- Highest Diversion of Waste from Landfill Disposal(60-75%)
- Food Waste and Organics Recovery Program
- Lowest Overall Cost Structure and Long Term Stability of Waste Processing Costs
- Elimination of Ongoing Capital Investments

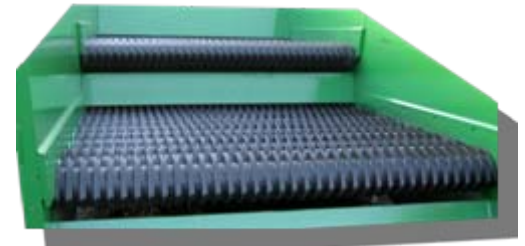

## **How does Zero Waste do it?**

- Retool and Operate your Existing Facilities
- JV or Acquire the Processing Business (Public or Private)
- Design, Build, and Operation of New Facilities
- Operational Expertise
- Performance Guarantees

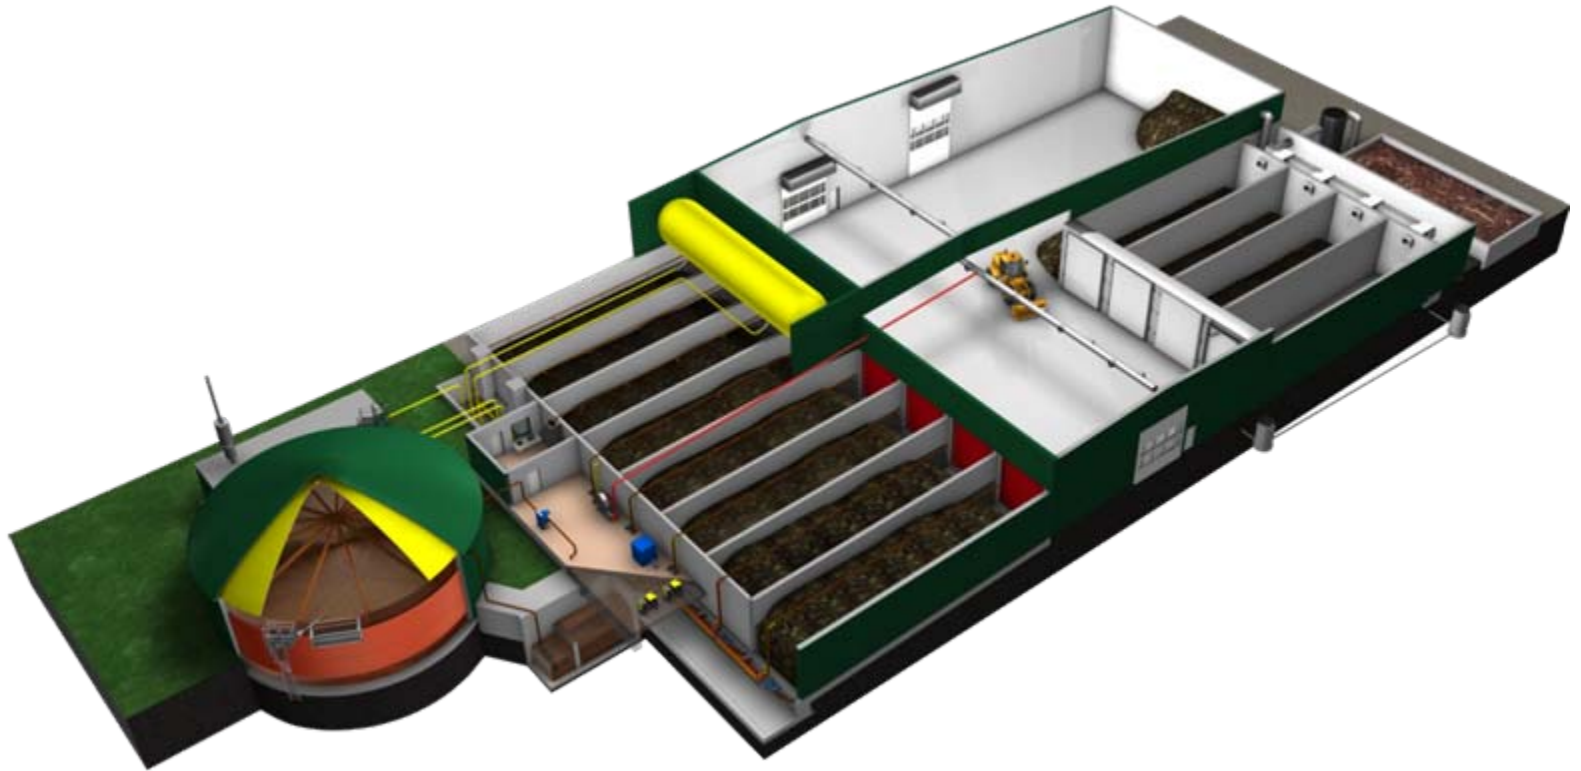

## **Our Technologies**

- Exclusive Partnership with Bulk Handling Systems
- Exclusive License for Kompoferm, dry fermentation AD
- Operational Knowledge, Data and Metrics for Success
